Open Letter to: Weyerhaeuser, Abitibi, Their Customers, Investors, and Bankers

Re: Cease and Desist All Logging and Industrial Resource Extraction on our Territory

For many years our people have suffered from a forced industrial invasion of our forest homeland. Our forests have sustained us for thousands of years, but industrial exploitation of these once rich forests, lakes and rivers has poisoned our waters with mercury and other toxins, nearly eliminated our ability to practice our way of life, and robbed us of economic opportunities. We are not consenting to the clear-cutting of our traditional lands, which is a continued assault on our culture, our way of life, and indeed our very existence. Leave us alone, let us use our land how we want to use it, let us feed our people how we want to feed them, and then our people will become strong again.

On December 2nd, 2002 we, the people of Grassy Narrows First Nation, started a blockade in our traditional territory that still stands strong today. This letter is your final official notice that you are taking part in the destruction of our homeland against our will. You have been given fair warning that this destruction will not be tolerated. We order you to immediately cease and desist from all logging and industrial resource extraction on our territory. Terminate all logging, buying, selling, investing, financing, and profiting from the desecration of our homeland by Weyerhaeuser and Abitibi corporations and their subsidiaries. No development will occur on our territory without the full, free, prior, and informed consent of our community.

GRASSY NARROWS FIRST NATION

If you choose to continue engaging in, or profiting from, the destruction of our homeland, know that you will face a fierce campaign against you on all fronts – in the woods, in the streets, in the market place, in your boardrooms, and in the media. We warmly invite our friends in the environmental, human rights, indigenous solidarity, faith-based, anti-poverty, anti-globalization, and all movements for social, ecological and economic justice to support our struggle, and take non-violent action in solidarity with us against the corporations that are plundering our homeland – starting with Weyerhaeuser and Abitibi. Stand strongly and proudly with us as we safeguard the basis of a bright future for all of our children and unborn generations. Take a stand with us in defence of our mother earth.

We are prepared to take all necessary actions to protect our homeland from further desecration.

The Community of Grassy Narrows

Signed,
